

Course. OPITO Banksman / Slinger & Lifting Ops Refresher Onshore

Duration. 1 Day

Training

Accredited by OPITO, the purpose of this course is to assess the knowledge and skills of the previously qualified or experienced banksman. The following areas are assessed or updated:

- What offshore deck crews are expected to do
- The knowledge and skills they require to enable them to do safely what is expected of them
- Demonstration of those skills
- Effective training leading to safer practices at the worksite
- Technology and legislative updates

Each candidate will be required to inspect, prepare, produce written plans, select & attach the correct lifting equipment, and direct the crane operator to manoeuvre loads including:

Tubulars, Containers, Bulk Hoses, Unbalanced loads and blind lifts.

Delegates with prior experience that do not hold OPITO Stage 1/2 qualifications will require a testimony to prove a minimum of 2 years experience in the discipline.

Assessment/Refreshment covers:

- Relevant legislation (LOLER 98) ACOFS, Relevant Standards, eg (BS 7121 Part 11)
- Safe systems of work (Permits, Toolbox talks, etc)
- Risk Assessment and control measures.
- Equipment pre-use inspection
- Safe use of equipment
- Slinging principles and technology
- Weight identification and estimation
- Placement of loads
- Disconnection of loading equipment
- Hand signalling and use of hand-held radios
- Appreciation of crane principles
- Appreciation of dynamic factors
- Awareness of conflicting activities
- Weather considerations

Duration: 1 day, candidates are required to bring their own PPE

Dates: arranged to the mutual convenience of Client / candidates / A1 Consultants.
