

**Course.** Scaffolding

**Duration.** 5 Days

## Training

### Introduction

This course is intended for personnel wishing to train as Scaffolders or a Scaffolder wishing to qualify as 'Competent Person'. The course covers most aspects of scaffolding from initial preparation for the scaffold, scaffold materials used, building a scaffold structure, inspection and safety check lists.

### Content

- Is scaffold necessary, can a safer method of working be found?
- Employer's responsibilities
- Preparations before erection of scaffolding.
- Suspended scaffolding; working at height.
- Safety harnesses and lanyards

### Content

- Basic scaffolding materials required
- Any faults in scaffolding materials to be used.
- Correct and incorrect foundations
- Scaffolding components
- Various ties, how and where they are used.
- Where and when guard rails and Toe boards must be used.
- Precautions specific to scaffold boards on platforms and gangways
- Checks to be made on access areas and ladders
- Frequency of scaffold inspections and information to be retained
- Safety Checklists
- Wind loading on sheeting
- Scaffold inspection report
- Handover Certificate

A multi-choice type test paper will be given at the end of the course and a certificate issued to all successful candidates.

**Duration:** 5 days

**Location:** A1 Safety Training or at a client's site provided that safety standards are met.
